

Flying Times

June 2013

Hi all,

Welcome to the Brrrrrrr wintery edition of the Flying Times, perhaps we should call this edition the Freezing Times as the temperature is certainly heading south now we are in June.

Whilst June to August for some states is a chance to rest dogs during these colder days and most of our dogs would certainly be cuddling up in a cosy dog bed (or our bed!) other states still have comps over the winter especially this coming June long weekend.

Lots of dogs tend to run faster or consistently faster during the colder months, which is great for the dogs, but we need to remember to warm them up and massage our four pawed friends to ensure good circulation and nimble joints before every race in this type of weather.

On another note, it seems there was an error up loading the previous edition to the AFA website where either part or most of the Eulogy to Mal Ford was omitted, we apologise for the error and have reprinted Mal's Eulogy in this edition.

Flyball Points Update

Eulogy - Malcolm Ford 29/1/62 - 22/12/12

Farewell to our friend and Flyball Team- mate.

Malcolm was first a member of the Leaps and Bounds club, where in his first competition won first place in Division 4 at the Sydney Royal Easter Show in 2003. Molly was only 15 months old.

Malcolm then moved on and became a member of Parramatta International Canine Sports (PICSI) in 2004. After a few months of training with PICSI he came home one night and said to Debbie he was going to run in a team with Merran and Kai, and Suzette and Moby (who were in different clubs and teams at that time).

His wish came true and in 2004 Parramatta Pandemonium was formed later to become Southern Cross Supernova. Malcolm captained this team and for many years competed in first division with many successes. Back in those days, if you wanted your dog's individual and team times, you needed to stand behind the timing table and stare at a tiny little screen to see the numbers.

We have been through some very old stat sheets and when this team was at its peak they consistently ran 18 seconds runs. Their best time that we can find was 18.0 secs. They were named team of the year in 2006 with Kody, Kai ,Molly, Moby, Bonnie and Chance.

In 2006 Malcolm was a founding member of the Southern Cross Flyball Club where he was Vice-President and chief Flyball instructor. Malcolm has trained many of Southern Cross's Successful dogs and they are a credit to him.

Malcolm was also very proud to be able to compete in the World Dog Games at the Acer Arena in Sydney in 2009. The team of Kody Kay Molly, River Bonnie and Banjo competed as Pawpedoes. It was such an amazing experience for all the Flyball competitors.

In 2010 Southern Cross Supernova (Kody, Kai, Molly, Moby, Banjo and Bonnie) won 1st place in Division 2 at the Melbourne Nationals. We were also awarded the "Maggie" trophy by Josh Ellen, as this was the first time this was awarded, it was quite an emotional presentation, but a lovely memory none the less.

Malcolm competed with and captained Southern Cross Supernovas until the teams retirement in 2011 at the Sydney Royal Easter Show, winning the first Australian Nationals Veteran Championships. This team had been racing successfully for 7 years.

At the Canberra Royal Nationals in 2012, Malcolm and Molly were then a part of The Constellations team that won 7th Division. The team consisted of Molly, Moby, Bonnie, Tanna, Charlee and Maddie. This team still competes today known as The Shining Stars and we will still run together for Malcolm with his Molly.

The first of the original Supernovas to retire was Kai, Malcolm was terribly upset when Merran made the decision as her sight began to fail. One of Malcolm's favourite little dogs was Moby. Moby was diagnosed with a brain tumor as well as cataracts on his eyes. Thankfully with eye surgery and months of wonderful treatment, Malcolm was able to compete yet again with Moby. Kody was next to retire, it was all getting too hard for the Supernova start dog.

Overall, Malcolm had a very successful career, with more ups than downs.

Malcolm lived and loved Flyball, all he wanted was for the dogs to succeed. He will be remembered by many, but he will never be forgotten by his team mates and Southern Cross.

Though he is no longer with us, we know he will always be with us every time we go into a flyball ring.

Rest Easy Buddy.

From the AFA Sub Committee

Warning – extra care needed when dogs are entering and exiting the flyball ring.

The AFA Dog Incident Sub Committee wishes to draw to all competitors' attention the need to exercise extra care and control of dogs when entering and exiting the ring. There had been a number of minor aggression incidents in recent times during these periods. It would appear that some members seem to think that given the dogs are not actually racing or warming up at these times there is a low risk factor in operation. This is in the experience of the Sub Committee NOT SO - dogs can be hyped at these times and in closer than normal proximity to other dogs and people. A hyped dog can quickly nip out at another dog or person if not under control of a short lead.

The Sub Committee also wants to stress to members that boxloaders and ballshaggers from the earlier teams leaving the ring at the box end should avoid as far as is possible pushing past dogs entering the ring. In coming handlers should exercise restraint and give the outgoing boxloader space to remove the box.

Competition Organisers are encouraged to ensure that there is adequate space allowed for entry/exit gates when setting up the ring.

ACT Update

Winter arrived just in time for the first competition in the ACT since the Canberra Show in February. The annual Million Paws Walk competition bought with it the first change in our weather, some political visitors stopping to watch some of the racing and the ACT's Skywhale dreaming it could drift over the lake to get a better look at the action (if you look closely its also

eyeing off Ross's birthday cake). This year's MPW competition was run using an open format with passing crowds being treated to tight racing throughout the day with 0.000 starts achieved by Norwest and Belconnen competitors.

This weekend saw the annual ACT Winter Classic State titles held at the Belconnen dog club. This is a two day competition with the State title determined by championship racing. This years competition once again showcased the beautiful contrasts in winter Canberra weather with racing on day two taking place through some light fog for the first hour of racing - just for something different.

Div 1

Div 2

Div 3

Div 4

Division winners from five divisions this year vied off for the state title with the Belconnen Licorice Bullets knocking themselves out against Norwest 6 in the first championship heat with a spectacular breakout time almost one second faster than the breakout. Norwest 6 then went down to the SX Comets who had to wait to see whether they would be racing the k9 Krusaders

Div 5

Day 2 - Fog

or Norwest 3 for the title.

The final between SX Comets and K9 Krusaders saw the competitive spirit alive and well in both teams with the Comets coming out on top to take this year's title.

On behalf of the Bullets and X-Factor I would like to once again thank all our officials for helping run these two competitions and all those teams travelling and attending to make them so much fun.

NSW Update

Been a bit quiet on the Flyball front in NSW since the Canberra show and the Sydney Easter Show.

Following the Canberra Show, Norwest hosted their Hounds in the Hills competition on March 10 so we had a chance to try out a couple of things prior to the Sydney Royal. With 26 teams entered broken down into 8 divisions, it was obviously a popular comp!

Norwest Thunderdogs did a best time of 17.988 to take out division one from the Scallywags Cannon Blast, St George Phoenix and Southern Cross Comets, while in division 2 the Milton Muddy's managed to hold off the Thunderdogs 2 and 3 teams to take the division win. Sydney Psychos won division 3; St George Ballistics, division 4; Southern Cross Shining Stars division 5; Sutherland Southerly Breeze division 6; Scallywag Hopefuls division 7 and

Tuggeranong Howling Torpedoes division 8.

Newbie runs with a "distracter"

Next stop was the Easter Show, starting with demonstrations the weekend prior to Easter and two competitions over the Easter long weekend. This year the show opened before the school holidays had kicked in so the crowds seemed a bit down against our usual audience. As usual the demonstration days proved to be ideal for newer dogs to try their paws at running in an environment that differs from their normal training ground and for the more experienced dogs to have a run with different team mates, all of which makes great entertainment for the public.

Crowds for both the Easter weekend competitions were good although the Good Friday “Flyball Flurry” could have been re-named the “Break Out Special” competition with more than 20% of the teams managing to exceed their seed times by more than a second several times!

It was great to see the Western Weiners team from Victoria joining us for the weekend (even if their Chilli Dogs were one of the break-out teams on the Friday!) The day went well with Scallywags Cannon Blast taking division 1 honours; Southern Cross Comets, division 2 and Norwest Thunderdogs 6, division

3. Divisions 4 & 5 were taken by the visitors from the ACT through the Tuggeranong Screaming Torpedoes and Belconnen Rusty Bullets respectively

The Supercoat Challenge Cup ran for the two days, Easter Saturday and Sunday. St George Phoenix took a turn at the top of the list winning division 1 while the Weiners Hot Dogs team proved it was worth the long drive and took out division 2. Thunderdogs 5 won division 3; Psychos Too, division 4 with Thunderdogs 6 bringing up the rear at the top of division 5.

Noticeable Break-outs during the event were Sydney Psychos who achieved a time 1.681 better than their declared time, but the prize has to go to the 4 Paws Racing, Paws 4 No One team who exceeded their web based seed time by a massive 3.042 seconds!

Paws 4 Fun teams provided a demonstration of Flyball at the well-attended Border Collie Fun Day held on the Castle Hill Showground in April. Although the Flyball dogs went beyond Border Collies, the event, organised by the “Toby the Wonder dog” vet, Dr. Katrina Warren was aimed at a new record for the number of Border Collies in one photo for the Guinness Book of Records. The old record was 100; the new one is 503!! One Face Book entry by a Flyballer who shall remain nameless suggested that holding such a World Record event for Jack Russel's would

only take up a third of the space!

Subsequent to the day I've seen a bit of an up-turn in requests for information on where people can get to do Flyball. Unfortunately most of them have come from areas in the more remote parts of NSW or around Newcastle, so if anyone wants to start a club around there feel free to let me know!

Although the Committee has highlighted the issue, at the beginning of the year the NSW Government made it an offence to smoke at an outdoor sporting event. Having checked with the NSW Tobacco Information line, it's been confirmed that a Flyball competition would fit into the regulation. NSW Rangers are responsible for enforcing the rules with a possible \$550 fine being issued to individuals (not organisers).

May your dogs always return with a ball in their mouth.....

Frank

QLD Update

No Report

Vic Update

No Report

SA Update

The Royal Adelaide Show Comp is coming up on September 14th. **Entries close July 5th – DONT BE LATE.** As this is also Election Day you may want to pre vote beforehand.

Dont forget to get behind “Your” AFA and attend the AGM. Its your say that counts especially towards the on trial rules, ballots and you have a say on who your regional representative. AGM is on Saturday 17th August. Keep an eye on the website for your local location.

For those who know myself, Wayne & Izabella we welcomed a new arrival in March. Mackenzie Rose entered this world on Thursday 21st March. She shares her birthday with two of her cousins ☺. In true Flyball style she has already attended her first comp in May. We are all doing well and

if all goes well we will come over to the Nationals.
Happy racing and safe travels

Catherine

Tassie Update

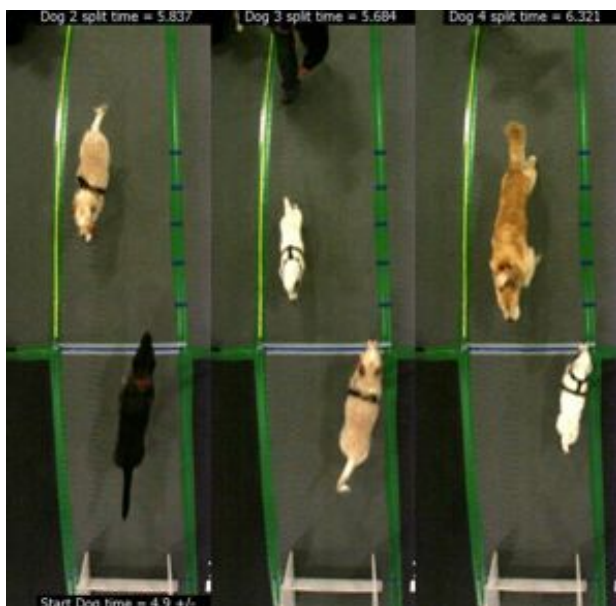

Not a lot to report at present from Hobart K-niners. Gradually building up our new team but will not be ready with all our new dogs for running in the Nationals this year.

If we were able to join in with another team that had not enough dogs to make up a full team we would be there in a flash as we do have three/four dogs who could run at competition level. However - we know that is not possible so will just keep training our new dogs until they are ready.

Derek and I celebrated our Diamond Wedding Anniversary last week (in case anyone is interested). 1953 was a very important year with many things celebratory happening so we can include ourselves in that.

We hope all our fellow flyballers on the mainland are well and wish them well in all their comps. Cheers for now. Dot Baverstock - Team Co-ordinator - Hobart K-niners (for Hobart Canine Obedience Club Inc.)

Aussies Invade CanAm – Martin Watt

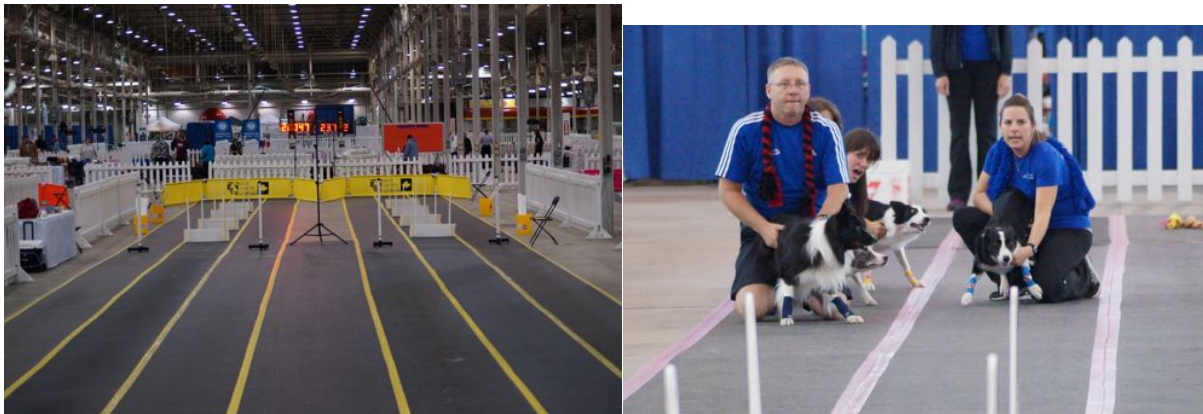

On Thurs I arrived at the Indian State Fairgrounds at about 10.00ish after introducing myself to Leerie Jenkins(NAFA Board Member) he showed me where I could help out, we started rolling out some of the mats and then with some of the other mats that had been laid out we moved over to start making the lanes for the Yellow ring.

There was also about 6-8 students from the Indianapolis Uni that where being paid to also set up the mats, after lunch we finished up the yellow ring but the other rings where far behind where they needed to be for racing the next day, I was then introduced to Dave Walt (NAFA judges committee) who I had email contact with in the months leading up to my trip.

I then helped Dave with unpacking the EJS's and plugging them in to charge up next to the ring they where assigned to which was decided by the numbers on the cases to distinguish the signals so that they did not interfere with one and another.

I then went back to some more lane work on the blue, red and green rings, which where the 3 rings closest to the camera for those that watched the web stream, buy about 4.00pm I had enough and headed off to go back to the hotel but there was still quite a bit left to do for the rings to be finished. Later on when back at the hotel Geoff and Amanda Brown arrived and then Jessica Mellon and Phil Lea got there, boy was I relived to hear someone talk normally for a change.

On Friday it was an early start we got to the Fairgrounds at about 7.00am after setting up with our Aussie flag in the camp it was time for the morning teams meeting, after the meeting Amanda gave us a card with the races for the teams on that day then assigned people who where not racing at the time a job to do such as pass calling, recording stats, ball shagging and so on.

There was only 5 of the 6 rings being used on day 1 and the 'CanAm' teams (Division 1) where not racing either but there was still 16 & 17 sec runs going on, I spent a lot of the day looking at the racing that was going on and also looking at the stall holders at one end of the pavilion we where in.

The set up of the area was like I have seen at the Australian Nationals with an area for boxes and a ring caller and rings either side of that except there was 3 rings each side of the box area, after a long day of racing that went until about 4.00pm we headed back to the hotel and then out for dinner with the team.

On Saturday we had another early start at about 7.00am again, followed by the teams meeting and then Amanda gave us the race cards and jobs but on this day one of my jobs was to run

Halo Geoff and Amanda's beautiful merle girl I was so excited that I was going to race a dog at CanAm.

As well as having big TV screens set up all around the building with the current teams racing in a ring, the next teams up and the next two teams after that for each ring, the exact same screen was uploaded live to the web so you could see it on your phone also, if you could see a ring conflict coming up then the team would need to let the ring callers know so races could be moved. In the races on that day when I ran Halo I got one run at 3.9 secs running third, then a dog was making mistakes so I got moved to start with Halo and then I got a .079 and a .041, she was such a great dog to run she was just focused on what her job was it was great.

Also on day 2 we got to race in the red ring which is the championship ring and had TV screens at the end of the run and cameras over the start lines of the runs with a remote trigger that takes a photo when the pass pole is triggered then puts the image taken up on the screen at the end, so you could see how you passes where.

On Sunday we got there early once again and found out at the morning meeting who the teams where that had qualified for the CanAm race's, these are the championship race's and when they are run all other racing in the other rings are stopped and only the CanAm races are on for every one to watch.

The CanAm race's have the best racing I have ever seen anywhere and I was watching low 15 second runs, also on this day the 'Drug Store' across from the pavilion was open and as I found out this was a good thing because they made old fashioned Soda Creams, sundaes and all thing good with ice cream.

On day's 2 & 3 each morning the Aussies that where there all got a bag of goodies to take home including a cup, car window shade and all had CanAm on them. Between the regular racing, teams racing for Dog Gone Fast (Geoff and Amanda's Club) and the CanAm race's there was great flyball racing all day, late in the day every one got ready for the CanAm Final's and the race was on to get the best position at the Red ring, the top classes are Regular 1 (Only dogs from the same club) and Multi 1 (Teams made up of dogs from different clubs) and after the racing was done Spingloaded was CanAm Regular 1 Champions 2012.

I had such a great time at CanAm and my entire trip to the US and the Flyball community in America are all so very friendly I meet lots of great people and still talk to most of them now, I really hope that I will be able to go back one day but if not it was such a great time for anyone who loves Flyball I would highly recommend the trip.
