

Notification # 11 - Notification of any Special Conditions associated with Sanctioned Events.

Notice to all Club Contacts.

The Committee would like you to bring to the attention of all Club Members, and in particular those members who are involved in organising Competitions and Demonstrations, the desirability of indicating any “special” conditions of entry as part of the Sanction Application and also publishing the conditions at time of posting of the draw on the web.

Examples of “Special” conditions that have applied at competitions are:

- Racing must conclude by 3.30 pm with presentation finished by 4 pm.
- Dogs are not allowed to be walked from venue till after 5 pm.
- No alcohol consumption allowed in Showground, except at licensed bars.

The Committee requests that where such conditions are part of the requirements of the event managers (such as Pet Expos , Agricultural Show etc) they be included in the Sanction Application under the final heading of “Special Rules or Requests”. We would also ask that they be repeated in any Web Posting at time of the Draw and published in the Catalogue. If possible we would encourage Clubs to publish the full catalogue on the web so members can print off copies rather than handing out limited copies at the Team Captains Meeting.

The above requests are designed to avoid problems where members may enter an event without being aware of the special rules that are applicable and as a result fail to comply with the requirements.
